

Official Transcript is Blank

Overview

This article covers steps on what to do if your Official Transcript is blank.

Getting Started

The most common issue when your Official Transcript is blank is that CE was selected as the student type when requesting your transcript.

- Request your transcript again.
- When asked for the student type, do not select CE and select another option.

Contact Support

If you continue to have issues with your Official Transcript being blank, please contact Student Records. Contact information can be found at [Student Records](#).
