

Is Lockdown Browser down?

Overview

If you're experiencing issues with Respondus LockDown Browser, it may be due to a service outage. You can check the current status of the LockDown Browser to see if there are any reported issues.

Getting Started

- Go to the [Respondus Status Page](#).
- Look for any reported issues or outages affecting LockDown Browser.
- If the system is down or degraded, please wait for Respondus to resolve the issue.
