Accessing YuJa and Video Tutorials

Overview

This article provides information about YuJa, accessing YuJa, and links to tutorial videos.

Getting Started

YuJa Video Editor is an all-in-one solution for professional video editing and management software.

Accessing YuJa

1. Log into [Brightspace](#).
2. YuJa will be displayed at the top banner.
3. YuJa Media Library will open.

Recording

- YuJa requires first installing the YuJa software before you may start recording.
- Employees installing YuJa may need to contact [Help Desk](#) to have the software installed on MCC owned computers.

Tutorials

YuJa offers video tutorials at <https://support.yuja.com/hc/en-us/articles/360052538613-Video-Tutorials>.

Yuja on a Mobile Device

Overview

This article covers accessing Yuja on a mobile device.

Getting Started

Using a Web Browser

- Log in to [Brightspace](#) on your phone
- Select the 3 lines at the top of the screen
- Select Yuja
- Select View Media Library with the browser

Using the Yuja Mobile App

- Install the Yuja Video app from your mobile device app store
- Log in to [Brightspace](#) on your phone using a web browser (e.g Chrome, Firefox, Safari)
- Select the three lines icon at the top of the screen
- Select Yuja
- Select View using the Yuja Mobile app
- Tab again and the Yuja app will open and log you in to your account
