Wireless Connections

Wireless Connections: Access MCC Faculty & Staff, MCC Guest, and MCC Student WiFi for secure and convenient internet use.

- MCC Guest WiFi

    - Wi-Fi Network: MCC-Guests

- MCC Student WiFi

    - Wi-Fi Network: MCC-Students

MCC Guest WiFi

Wi-Fi Network: MCC-Guests

Overview

These instructions are for former Students, Faculty, Staff, Guests, and Non-Students, Vendors to connect to the guest Wi-Fi network.

Getting Started

- Select the WiFi network named **MCC-Guest**.

- On the MCC-Guest WiFi login page, click on the **Don't have an account?** link.

- Complete the **MCC-Guest** form and click **Register**.

- You will receive a username and password within a few minutes to the email account provided on the form.

- Once you receive the log in credentials, connect to **MCC-Guest** and sign in with the provided credentials.

Access Time

- **Please Note:** The provided login credentials are only valid for **24 hours**. You will need to repeat the process to create an account each day you are on campus.

- If you are returning the following day but within the **24 hour** period, we recommend signing up for a new account but specify a different username on the form (otherwise it will be unable to create the new account as the username already exists in the system).

MCC Student WiFi

Wi-Fi Network: MCC-Students

Overview

These instructions are to connect to the Student Wi-Fi network. MCC-Students Wi-FI network is for Students ONLY - Guests, Faculty & Staff will be unable to access

Getting Started

- Open your **Wi-Fi settings** and connect to **MCC-Students**.

- You will be redirected to our Web Portal login page.
  - If you are not redirected to the login page, manually go to a website you have not accessed in a while (something not in your history, and you do not have a shortcut to).

- Log into the Wi-Fi using your username and password.

Advanced Troubleshooting

Please proceed with caution. McLennan Community College is not liable for any damage caused while tying these steps. If you need assistance, please stop by Help Desk and a Help Desk Representative can assist you.

- If laptop tries but is not able to connect to student WiFi login page, check the your DNS settings of the wireless adapter.
  - It should be set to detect the DNS server automatically (public DNS is not supported).

- If other IP(s) are added in the DNS field, make a note of the numbers then remove them, then try to reconnect to the network.
  - **Important.** Add the IP Address back that you removed after you are done using the Student network.
