

# Wi-Fi Network: MCC-Students

## Overview

These instructions are to connect to the Student Wi-Fi network. MCC-Students Wi-Fi network is for Students ONLY - Guests, Faculty & Staff will be unable to access

## Getting Started

- Open your 'Wi-Fi' settings and connect to 'MCC-Students'.
- You will be redirected to the Web Portal login page.
  - If you are not redirected to the login page, manually go to a website you have not accessed in a while (something not in your history, and you do not have a shortcut to).
- Log into the Wi-Fi using your username and password.

## Advanced Troubleshooting

**Please proceed with caution.** McLennan Community College is not liable for any damage caused while trying these steps. If you need assistance, please stop by Help Desk and a Help Desk Representative can assist you.

- If laptop tries but is not able to connect to student Wi-Fi login page, check your DNS settings of the wireless adapter.
  - It should be set to detect the DNS server automatically (public DNS is not supported).
- If other IP(s) are added in the DNS field, make a note of the numbers then remove them, then try to reconnect to the network.
  - **Important.** Add the IP Address back that you removed after you are done using the Student network.
